

CORDIS: FP7, R&D funding

In this presentation:

- Introduction of CORDIS FP7 service
- Overview of FP7 structure
 - Four, plus two, main programmes
 - Ten, plus two, high-level themes
 - Main changes from FP6
 - Calls for proposals
- Funding process & CORDIS support facilities

Full information, plus
all funding documents
and application
procedures are on

CORDIS FP7 Service – key features

The screenshot shows the CORDIS FP7 Service website interface. At the top, there's a header with the CORDIS logo and the text 'CORDIS Presentation'. Below that, the main title 'CORDIS FP7 Service – key features' is displayed in orange. The URL 'http://cordis.europa.eu' is in the top right corner. The main content area is titled 'Seventh Research Framework Programme (FP7)'. It features a navigation menu on the left, a central grid of thematic categories (Cooperation, Ideas, People, Capacities, Euratom), and several news and event sections. Callout boxes highlight specific features: 'Main navigation' points to the left menu; 'Spotlight feature' points to the 'In the spotlight' section; 'Latest news & forthcoming events' points to the 'Latest News' and 'Forthcoming Events' sections; 'Thematic colour coding' points to the colored grid; 'Presentation by type of user' points to the user selection buttons; and 'Principal themes (colour coded)' points to the central grid.

Thematic colour coding

Presentation by type of user

Principal themes (colour coded)

■ Cooperation (Red)

- Collaborative research
- Joint Technology Initiatives / European Technology Platforms
- Co-ordination of non-Community research programmes
- International Cooperation

■ Ideas (Orange)

■ People (Purple)

■ Capacities (Magenta)

+

■ JRC (Light blue)

■ Euratom nuclear research and training activities. (Green)

- Health
- Food, Agriculture and Fisheries, Biotechnology
- ICT (Information & communication technologies)
- Nano-sciences, nano-technologies, materials & new production technologies
- Energy
- Environment (including climate change)
- Transport (including aeronautics)
- Socio-economic sciences and humanities
- Space
- Security
- Plus Euratom: Fusion energy research and - Nuclear fission and radiation protection

New elements in FP7 include:

- Emphasis on 'research themes' rather than on 'instruments'
- Significant simplification of operation
- Focus on research meeting needs of European industry
 - Technology Platforms
 - Joint Technology Initiatives
- Establishment of a **European Research Council (ERC)**
- **International cooperation** integrated in all programmes
- Development of **Regions of Knowledge**
- **Risk-Sharing Finance Facility**
 - Fostering private investment in research

Activities

- Transport (including Aeronautics)
 - Aeronautics and air transport
 - The greening of air transport
 - Increasing time efficiency
 - Ensuring customer satisfaction and safety
 - Improving cost efficiency
 - Protection of aircraft and passengers
 - Pioneering the air transport of the future
 - CROSS-CUTTING ACTIVITIES for implementation of the sub-theme programme
 - Understanding interactions between air transport, energy, environment and society
 - Understanding the behaviour of the different actors and drivers of the system
 - Improving passenger choice in air transportation with the incorporation of new technologies
 - Stimulating radical technological changes
 - Stimulating participation of small and medium size enterprises (SME)
 - Stimulating improved participation of Member States with aeronautics
 - Stimulating Research with International Cooperation Partner Countries

Activity Areas' Calls

Cooperation

- Health
- Food, Agriculture and Fisheries, and Biotechnology
- Information and Communication Technologies
- Nanosciences, Nanotechnologies, Materials and new Production Technologies
- Energy
- Environment (including Climate Change)
- Transport (including Aeronautics)
- Socio-economic sciences and Humanities
- Space
- Security
- General Activities - Annex IV

Ideas

- ERC

People

- PEOPLE

Capacities

- Research Infrastructures
- Research for the benefit of SMEs
- Regions of Knowledge
- Research Potential
- Science in Society
- Coherent development of research policies
- Activities of International Cooperation
